DESCRIPTION

Offering flexible and well-proportioned accommodation throughout, the property combines practical family living with character and individuality. Features include four genuine double bedrooms, a character sitting room with wood-burning stove, double doors open out onto the landscaped low-maintenance gardens, garage, extensive parking and owned solar panels with Tesla Powerwall battery storage (battery included by negotiation).

A central entrance hall welcomes you into the property and leads to the bright dual-aspect sitting room, where a wood-burning stove creates a warm and inviting focal point. Double doors open directly onto the rear garden, providing an excellent connection between indoor and outdoor living. The spacious kitchen/dining room forms the heart of the home and benefits from a central island together with extensive worktop and storage space. Flooded with natural light, it provides an ideal space for both family life and entertaining. A separate utility room offers additional practicality and leads to a versatile ground floor double bedroom, suitable for guest accommodation, a home office or multi-generational living.

To the first floor are three further generously proportioned double bedrooms and a family bathroom. The principal bedroom benefits from an en-suite shower room, while pleasant countryside views can be enjoyed from the principal first-floor rooms.

The property further benefits from an owned solar panel system together with a Tesla Powerwall battery storage system. The current owner advises they receive approximately £800 per annum through the Feed-in Tariff scheme and through a combination of solar generation and battery storage, enjoys exceptionally low running costs with effectively net-zero annual electricity costs based on their current usage.

The property benefits from uPVC double glazing, oil-fired central heating and has been thoughtfully improved and maintained by the current owners.

Stags consider this property a must view.
