The entrance opens into the proposed kitchen area, which has space for a range of base and wall units together with plumbing and high- and low-level electrical points already provided. To the left is the impressive open-plan lounge/diner, featuring a superb vaulted ceiling, attractive arched gable-end window and patio doors providing access onto the garden. A useful boiler room leads off the lounge/diner and houses the hot water cylinders and controls for the underfloor heating system.

From the central hallway, the principal bedroom is positioned at the end of the property and benefits from a front-facing window and vaulted ceiling. Bedroom two is also a well-proportioned double bedroom with a front-facing window. Positioned opposite the bedrooms is the proposed bathroom/shower room, with plumbing already provided ready for the installation of the chosen suite.

Outside

The property is approached via a shared driveway serving two other properties, with the bungalow benefiting from a right of way along the side of the property leading to a gravelled driveway and gated access to the garden.

To the front is a small enclosed garden with useful bin storage, together with wrought iron gated access into the main garden. Double timber gates provide access to the private rear garden, which offers off-road parking and is predominantly laid to gravel, creating a low-maintenance outdoor space. The garden is enclosed by mature boundaries and features a superb timber summer house positioned towards the far end with garden store at the rear, with mature trees providing a good degree of privacy. Patio doors from the lounge/diner open directly onto the garden, creating a pleasant connection between the internal and external spaces.
